Whole Number 654

Summer Travel on the Great Lakes

The Canadian Pacific Railway announces that the company's three passenger ships, plying the Great Lakes from Port McNicoll to Fort William, will commence their summer sailing schedules on May 4. Thereafter, there will be three sailings weekly, one from Owen Sound to Fort William on Mondays, returning Thursdays and two each same days. The announcement opens an alluring vista of attractive trips for the tourist who wishes to combine the beauty of scenery with cool traveling under luxurious conditions in the swiftest summer days that are now approaching. These vessels, S.S. Assiniboia, Kewatin and Manitoba, are well appointed boats offering every comfort to travellers and their route is through the Georgian Bay, Lake Huron, the Sault Ste. Marie locks where there is a rise of about 20 feet to Lake Superior which they traverse, and up that vast inland sea to Fort William. The passenger travels a cut 600 miles, spending 39 hours on the waters of these lakes, often out of sight of land, and getting the beneficial effects of an ocean voyage. Dancing, plenty of space, strolls along promenade decks, cozy cabins, well appointed dining-saloons, glimpses of ever-changing and beautiful scenes, if every taste and combine to make up a trip that will linger long in the memory. Travellers who are thinking of a journey across the continent from east to west, or vice-versa will find the trip on the Great Lakes makes a most welcome change in the monotony of rail travel. Lay-out shows Canadian Pacific ship ready to sail from Port McNicoll with passenger train alongside; and passing Thunder Bay, a picturesque beauty spot on Lake Superior.

World's Grain Exhibition at Regina, 1932.

Younger farmers in every part of Canada are becoming intensely interested in the World's Grain Exhibition and Conference to be held in Regina in 1932, especially in that phase of it which provides for junior judging competitions. In Saskatchewan the extension department of the College of Agriculture in co-operation with Saskatchewan wheat pool, is again fostering grain clubs for juniors and has just issued in printed form the rules and regulations for this year. Grain clubs may be formed under the auspices of any agricultural society or recognised rural organisation

and five competitions are provided in preparation for the World's Grain Exhibition in 1932.

World comes from British Columbia and Alberta that similar plans are being worked out there; so that these provinces may be in a position to send to the 1932 exhibition at Regina junior teams well trained in the work of grain judging.

Eastern Canada is equally interested in these competitions. The young farmers of Nova Scotia, New Brunswick and Prince Edward Island are preparing to send the best they can select to compete with their friends in the West in both classes.

Stony Plain and District

In the account of the trial of Mike Schmigielski, in last week's Sun, an error was made in stating the amount of the fine. Mike was fined \$5 and costs.

The quartet of young men who left here three weeks ago for Chicago, have returned, after a very enjoyable trip.

"Bow River Trail" troupe is still traveling on. They played an engagement at the Concordia College, Saturday evening, and were given a hearty welcome.

The committee in charge of the dance on Friday evening excelled itself in the entertainment provided, the large crowd which attended giving proof of this. The dancers were loath to leave at 2 a.m. until assured another such delightful evening awaited them in the near future.

The Edison Signal carries the story of another case of petty thieving which occurred Monday morning when some unknown party broke into Roy Alton's Service Hardware store and stole a quantity of small hardware goods; entry being made by forcing a back window with a jimmy.

Inga Councillors are billed to meet in Stony Plain on Friday, May 8.

A Community dance will be held at Muir Lake hall tomorrow (Friday) night, May 1st.

Richest Deposit Of Radium In The World Is Found In The North-West Territories

The richest deposit of radium in the world lies at Great Bear Lake, 1,200 miles north of Edmonton in the Northwest Territories.

Such was the fact disclosed, when Dr. J. A. Allan, head of the department of geology, at the University of Alberta, revealed results of analysis just completed by provincial and university officials of pitchblende ore samples taken from that area.

On the basis of the samples analyzed, Dr. Allan estimated the value of the ore at \$5,600 a ton.

Not only was this radium-bearing pitchblende to be found at Echo Bay, on Great Bear Lake, but the geologist indicated it might also be located in the pre-Cambrian Shield that covers 12,000 square miles of Alberta.

The ore samples sent to the University by A. L. Cummings, supervisory mining engineer for the Dominion Government at Fort Smith, are practically pure pitchblende, Dr. Allan stated. They run rich in pitchblende and with less residue than the ores taken from the mines in the Belgian Congo, now the only large scale radium producing mines in the world.

Mineralogical analysis, conducted by J. A. Allan, M.S., Ph.D., F.R.S.C., and L. Rutherford, M.Sc., Ph.D., show that the uranium ore is contained in a particularly rich pitchblende or amorphous uraninite.

Radioactivity tests of the pitchblende, conducted by E. H. Bloomer, M.S., Ph.D., show that the mineral contains approximately 182 milligrams per ton, approximately 17 times as strong as standard Colorado carnotite.

Since radium is worth approximately \$70 per milligram, a ton of the Echo Lake pitchblende would be worth approximately \$12,700 per ton. This would mean that the ore, containing 60 per cent. pitchblende, would be worth about \$5,600 per ton.

"These analyses," Dr. Allan declared when interviewed recently, "show that one gram of radium is contained in every six tons of the pitchblende."

"The discovery of pitchblende in the pre-Cambrian rock of Canada, is," he continued, "of great national importance; not so much because of this particular deposit about which so little is known, but because of the knowledge that there is pitchblende to be found in the great expanse of pre-Cambrian rock which lies exposed for over 2,000,000 square miles in Canada."

"It means that there has been discovered a great national wealth which Canada had not previously realized. There is no reason for suggesting that the ore body from which these samples were taken is the only portion of the vast pre-Cambrian Shield where the pitchblende ores occur."

In the Path Of Peace

Denmark Votes To Abolish The Army and Navy

Denmark's Parliament lately voted to abolish the army and navy, leaving no more than a police force and a coast guard capable of regulating shipping and customs service. Whether this means the passing of military pomp and naval prowess from a nation once mighty at sea, it is a fact that Denmark hasn't the man power nor the industrial resources to make it mighty in modern warfare. Yet the Danes, once dread marauders by land and sea, have followed peaceful paths to a much finer destiny.—Daily Oklahoman.

"Wait a minute, I can have them put back on the nest for a moment!" —Pages Gales, Yverdon.

W. N. U. 1887

Advice Worth Considering

Parents Should Not Date Children With Topical Names

Some parents cannot resist the temptation to give the new baby a Christian name that is topical. Let home celebrity visit the neighborhood, some great event happen, even a battle or a horse race, and the unfortunate infant who happens along at that time, is liable to be given an eponymous name which dates their birth for evermore.

Recently there have been twins afflicted with the names of Amos and Andy. There are Ramsay MacDonalds, even in Canada, and throughout the world there were were boys christened Vimy and Haig and lots of other names that will sound funny to them when they grow up.

Many girls owe the name Alma to the fact that their grandmothers were so named during the Crimean war. And there are legions of boys today who are Nelsons and Wellingtons, handed down from their ancestors, and who have as much warlike instinct in their make-up as a mouse.

If you are thinking of a name for the baby don't give him or her a name that will "date."

Extend Invitation To Prince

Hopes That His Royal Highness Will Open World's Grain Exhibition

Sixteen countries have so far accepted the invitation of the Canadian Government to send official representatives to the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1922. The countries from which word has been received that they will be represented by delegates and exhibits are: Italy, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, The Netherlands, Belgium, Poland, Spain, India, Portugal, Switzerland, Estonia, The Philippine Islands and Argentina. It is expected that about 50 countries will be represented when the exhibition and conference opens next year.

The management is hopeful that H.R.H. the Prince of Wales will officially open the exhibition. An invitation to do so was extended to him by the British Industries Fair at Buenos Aires, Argentina, on March 14th last, by Sir George Perley, member of the Canadian Government, who was the official representative of Canada at the opening ceremonies of the fair at Buenos Aires.

Pure Maple Products

Government Regulations Result In Marked Improvement In Quality

One effect already noticeable in connection with the 1921 maple products crop is marked improvement in the purity and quality of the syrup and sugar coming onto the market. This is attributed to the provisions of the new Maple Sugar Industry Act and Regulations which came into effect March 1. Under its provisions commercial manufacturing and packing plants selling their product outside the province in which the plant is located require to be licensed, and all other commercial plants require to be registered. In the case of private owners of sugar bush or orchard a license is required only in such cases as where the product of the bush is sold outside the province in which it is located, and for this license there is no fee charged.

To End Depression

Co-operation of the governments of the world in an effort to reach agreement on a universal remedy for depression was declared to be necessary for the restoration of prosperity by Sir George Paish, internationally known economist and former editor of the London Statist, in an address before the Empire Club at Toronto.

A report states that 60,000 windowless sleeping rooms are used in the borough of Brooklyn, N.Y., in violation of the tenement house law.

FIRST ZONE MANAGER

W. J. McLeod, whose appointment as farm manager for zone No. 4, with headquarters at Mooseomin, Sask., has been announced by the Colonization Finance Corporation of Canada, Limited. Mr. McLeod is the first zone manager to be appointed by the corporation for Saskatchewan. He was also the first appointee of the Saskatchewan Department of Agriculture to introduce representative agricultural work in that province in which capacity he has been located at Govan, Sask., since 1920.

Industry Is Growing

Large Numbers Of Package Bees Shipped From Southern States Into North

Shipping package bees into the North from several Southern States has grown to such a large volume that the shippers are now asking for a reduction of express rates from one-and-one-half first-class to first-class rates. This movement was started by a committee of the California State Beekeepers' Association. Prices of package bees have been reduced, from year to year, the 1921 prices being the lowest in the history of the package-bee business. The production of package bees and early queens to go with them has been so greatly improved within recent years that the troublesome delays in shipping, which often occurred years ago, have been almost completely eliminated. The progress made during the past few years in this phase of beekeeping is most remarkable.

The Retort Courteous

In Winnipeg police court the prosecutor observed in trying a traffic case, that "the law is on the side of pedestrian." A. B. Shinnane, defending, replied grimly, "Yes, and so are the bumper marks."

RAOUL DANDURAND VISITS WASHINGTON

Hon. Raoul Dandurand, left, and Marchant Mahoney, chargé d'affaires of the Canadian legation at Washington, seen at the White House recently, when the former was presented to President Hoover.

Believes Scientists Might Turn Wheat To Many Other Uses Than Being Used Solely As Food

Census Takers Will Visit Northern Indians

Checking Up On Population In Saskatchewan This Year

The census-taker goes north this year. He will count heads in Saskatchewan's forest empire and check up on Indian population in ten bands north of '53. It will be an all-summer job that will carry enumerators through more than 1,500 miles of wilderness country and provide the first Indian census in a decade.

Indian department records place the present population of Crees and Chipewyans in northern Saskatchewan at 2,350. These are scattered in ten localities from Big River to Brochet.

They do not include the non-treaty Indians, half-breeds, Eskimos and white population of the northern half of the province.

Census enumerators will be part of the Indian treaty party to head north from Regina about June 6 on the first leg of a ten weeks journey through the north.

The treaty party will be under the direction of William Muirson, Regina, inspector for the department of Indian Affairs. Dr. Weatherhead, government medical officer at the Ile a la Croix hospital, will join the party at that northern post.

Treaty party officials will travel by canoe over the entire route from Big River, northwest of Prince Albert, to the north end of Reindeer Lake and then south and east to the Pas.

The party will assemble at Prince Albert and will include six or eight Indian canoe men from The Pas. They will embark in four canoes at Big River.

Grain Exports

Montreal Port In Looking Forward To A Busy Season

Between 13 and 14 million bushels of grain were booked for export shipment out of the port of Montreal during late April, and the month of May, twice as much as booked at this time last year.

From 30 to 35 tramp vessels have been chartered already to carry the first shipments out of Montreal, while liners departing will also carry quantities of grain.

The bookings, declared by dealers to be most encouraging for a busy season, are due mostly to the pick-up in export grain demand.

"Won't some millionaire endow a research laboratory for wheat?" That is the plea contained in a letter forwarded to prominent Toronto business men by a local firm, which believes wheat might be turned to many other uses than for food, and that increased utilization of the grain would help solve a great national problem.

The possibilities are suggested of a healthful, new non-intoxicating beverage, or a new medicinal discovery made from wheat; the combination of a distillation of wheat with tomato juice, cod liver oil, and the uses of wheat or its products as a new fuel element, which might be mixed with gasoline to improve that product.

Wheat, the letter notes, is composed of chemical elements that might be combined with a number of other chemical elements to produce a wide variety of new uses for wheat entirely distinct from its use as a food product.

"Put money and brains into research for wheat and there's no telling what wonders creative imagination and chemical skill might discover," the letter remarks, and concludes with the suggestion "that a non-political group of business men get together and take this matter up with the Dominion Government, or themselves organize a national wheat research laboratory, to be endowed by patriotic subscriptions. The government, the Wheat Pool and the transportation companies would be justified in investing millions in this work."

New Elevator At Churchill

One Of The Most Modern Grain Handling Plants On The Continent

The essential steel products for the Canadian Government grain elevator being erected at Churchill, terminal of the Hudson Bay Railway, will shortly be shipped from Winnipeg. These steel products include conveyer legs and spouting, dust collecting systems, roofing, main gutters, doors for track sheds, fire doors, etc., all of which will go into the making of one of the most modern grain handling plants on the continent. The Churchill elevator is to have a capacity of 2,000,000 bushels. It will be completed in time to handle test shipments of this year's grain from the Prairie Provinces to Europe by the Hudson Bay route.

Bees Carry Heavy Loads

About Half Their Own Weight Is Average Estimated

It has been estimated that an unladen honeybee can fly about 25 miles per hour, but that it seldom flies faster than 15 miles per hour. When weighed with nectar, it often flies as rapidly as when unladen, although it sometimes stops to rest on a long journey. Bees with very heavy loads may become exhausted when flying over lakes and rivers, fall into the water and drown. A heavily loaded bee sometimes makes an ungraceful landing at the apiary bumping into the hive or dropping to the ground before it. The load of nectar which the bee brings to the hive varies with the density of the nectar, but the average load is about 40 milligrams, or about half the weight of the bee.

South Africa expects to produce 15,000,000 bags of maize this year.

Judge: "You are not accused of writing your own name." —Yart Hem, Stockholm.

Your Chief Engineer

SUNDAY SCHOOL LESSON

MAY 3

JESUS IN THE HOME OF ZACCHAEUS

Golden Text: "The Son of Man came to seek and to save that which was lost."—Luke 19:10.
Lesson: Luke 19:1-10.
Devotional Reading: Psalm 103:1-10.

Explanations and Comments

The Call Of Zacchaeus, verses 1-6.—It was on His way to Jerusalem that Jesus met Zacchaeus, the chief publican—a commissioner of taxes, or internal revenue officer, we might call him. This office of chief publican was usually held by a Roman, only the lower offices of publican being given to Jews. Zacchaeus must have been a shrewd and unprincipled man to have gained this office. Love of gain had made him a publican, and as chief publican he had amassed a fortune at the expense of his brethren.

Zacchaeus had learned that Jesus was to pass through his town of Jericho, and made up his mind that he would see Him, despite his handicaps of age and stature. Perhaps he had heard of Jesus as the friend of publicans and sinners, and no doubt the news had spread of how Jesus had restored the sight of blind Bartimeus just outside of Jericho. In a crowd of people a short man has little chance of seeing what is going on, and Zacchaeus was so unpopular that of course no one would make way for him.

Zacchaeus was determined, and he was resourceful. He ran ahead of the crowd and climbed up into a sycamore tree—a "fig-mulberry tree," a leaf like the mulberry tree, and a very easy tree to climb, for it has low, horizontal branches. From this point of vantage he could not fail to see the Great Prophet when He passed below him.

The Interview Of Jesus and Zacchaeus, and Its Results, verses 6-10.—No wonder Zacchaeus had haste to come down and receive Jesus joyfully. "Probably no one outside his own class has ever held out his hand to Zacchaeus in all his business life, and the kindness was as sweet as it was strange."

The conversation which took place between Jesus and the publican is not recorded, but the wonderful procedure on the part of Jesus touched the heart of Zacchaeus and changed his life. If Jesus thought him worthy he would make himself worthy. He became a new man with a new purpose. He committed himself completely to Jesus and His way of life. "Here and now, Master," he said (in Weymouth's translation), "I have made my property to the poor; and if I have unjustly exacted money from any man, I pledge myself to repay him four times the amount."

"Today in salvation come to this house," said Jesus to Zacchaeus, and then, seemingly turning to the others present, he added, "Forasmuch as this son of Abraham by birth, and now also a true son of Abraham—a worthy to be called a true son of the great Hebrew father. 'Christ met him in the spirit of sympathy and yet in the spirit of justice. He did not see the just man in him, but never, not for a moment, condoned the unjust man. He did not declare pardon for the wrongs done to the poor men of Jericho. He awakened his sense of justice through personal sympathy, and the publican offered to make restitution. Then, when he was willing to do justice to right the great wrongs of the past, Jesus said, 'Salvation is come to this house.'"

Very beautifully does Archbishop Trench say, "Each had found what he was looking for—the Saviour and sinner. The Shepherd had found His sheep, and the sheep its Shepherd."

The Friend Of All Sufferers—Dr. Thomas' Electric Oil

Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a salve that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

Will Beautify City

The Saskatchewan Horticultural Society is receiving this spring from the Dominion experimental farm at Rosthern, 1,000 Scotch pines and 500 birch trees to be used in the beautification of city gardens.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, gummy, and croup. Invaluable for burns, sores, Barber's Itch and Ringworm.

Excursion Rates For Air Trips

Week-end excursion rates are to be put into effect by a London-Paris air service. The round-trip rate between the two cities will be \$30, as compared with \$200 in 1919, and making it cheaper to travel by air than by first-class train or boat.

You can easily tell a great man. He is so unlike your idea of a great man.

An albatross is said to have covered 3,150 miles in 12 days.

Summer COLDS

Almost everybody knows how Aspirin tablets break up a cold—but why not prevent it? Take a tablet or two when you first feel the cold coming on. Spare yourself the discomfort of a summer cold. Read the proven directions in every package for headaches, pain, etc.

British Industries Mission

Will Investigate Possibilities Of Canadian Market For British Goods

British manufacturers do not boast of their achievements sufficiently, according to Sir James Lithgow, who, with his colleagues, Sir Arthur Duckman and Moir MacKenzie, comprised the small but important delegation from the Federation of British Industries. Sir Arthur is president of the federation.

The mission was invited to Canada by Hon. H. H. Stevens, Minister of Trade and Commerce and their object is to co-operate with Canadian manufacturers in ascertaining which of Canada's requirements can best be supplied by British manufacturers.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes? It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Butter Supply From Prairies

Butter surpluses from the prairie provinces are now almost meeting the entire demand in Vancouver and imports from other countries have lately dwindled to very small proportions, according to the local dealers.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Twelve Canadian Oaks

There are twelve species of oak in Canada according to the Forest Service, Department of the Interior; one (the Garry oak) is found in British Columbia, the remainder in the East.

Helps Sheep Breeders

Federal Assistance In Connection With Ram Grading
One of the outstanding advantages of Ram Grading in connection with Federal assistance to sheep breeding through the Live Stock Branch of the Department of Agriculture at Ottawa, is the fact that individual farmers, clubs or associations can now either buy by mail order, by individual selection at the breeder's farm, or in the sale ring with greater assurance that the graded animal possesses most of the essentials of a good sire. The value of ram grading to the industry is reflected in the steady improvement which is noted in purebred flocks throughout the Dominion.

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

There is a race of men who are born with a sense of adventure. They hang their hats on the wall of a great emperor's palace, and settle down as if they were at home. They have a heart that is big as the world, and a head that is big as the world. They are the men who are born with a sense of adventure. They hang their hats on the wall of a great emperor's palace, and settle down as if they were at home. They have a heart that is big as the world, and a head that is big as the world. They are the men who are born with a sense of adventure.

General was started—then the General instinctively he shot out a velvet slipper and a wad of Scottie's attack, but the terror was all ready for such a move. He dodged—very quick as a flash, he caught the slipper in his teeth, shook it, and pulled for all he was worth—finally making off with it.

That was indeed a relief, and I apologized hastily for Scottie's shortcoming. The interpreter began to smile and did not understand a word of it. Then the interpreter began to talk in Chinese. Suddenly General Xu spoke sharply. I waited in suspense, so much depended on his answer.

(To Be Continued.)

One bright morning Scottie and I landed in Shanghai, we began to assemble our plans. Just as the job was finished, reports came in that fighting had broken out between two rival armies less than a hundred miles away. I asked Scottie if he would be interested in going

NO MORE ECZEMA

Itching Ends Right Away
"I had eczema for several months. It was painful and itched very much. I had tried many remedies but nothing helped. I then used the Eczema Ointment and it cured me. Itching stops, scaling goes. All druggists."

Glacier-Ground Rock Flour
The Athabasca River, which receives nearly all the drainage of Jasper National Park, Alberta, flows through the river passes on its way to the Arctic sea.

General was started—then the General instinctively he shot out a velvet slipper and a wad of Scottie's attack, but the terror was all ready for such a move. He dodged—very quick as a flash, he caught the slipper in his teeth, shook it, and pulled for all he was worth—finally making off with it.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE
THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: CHANTLER & CHANTLER LIMITED
51 Wellington St. W. TORONTO, ONT.

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNROOMS ETC.

SAYS FARMERS ARE OPPOSED TO FUTURE TRADING

Winnipeg, Man.—The curtain was rung down on the public hearings before Sir Josiah Stamp's Royal Commission on grain futures—but not before the Canadian Wheat Pool made a dramatic, last minute dash into the spotlight with a plea for government-supervised futures trading. At its last session in Canada, the commission heard A. J. McPhail, chairman of the Pool's Central Selling Agency, and Andrew Cairns, Pool statistician.

Alone among the 52 witnesses who testified at eight sessions in three prairie cities, Mr. McPhail represented the "inner-circle" salesmen, who handle half of Canada's wheat crop for 140,000 farmers. Other members of the Central Selling Agency attended the hearings at Winnipeg, Regina and Calgary, but none took the stand. Pool members, even directors of the co-operative, testified—but the Central Sales committee went unrepresented until the final day.

A great majority of the West's farmers, claimed Mr. McPhail, speak on behalf of 84,000 producers as head of the Saskatchewan Wheat Pool, are opposed to futures. They are strongly of the opinion that the futures' effect on the price they receive is detrimental, though they have no definite proof. Government supervision of the Winnipeg Exchange, thought Mr. McPhail, would offer data to show whether or not complaints against the options system are justified.

Suspicion in farmers' minds would be dispelled, stated the Pool man, if an unbiased study of statistics and records secured under government supervision revealed the complaints against futures trading as unfounded. On the other hand, he said, if there are weaknesses and abuses, the sooner they are exposed and corrected, the better for all concerned. Mr. McPhail referred to the United States plan of futures market supervision as "a valuable guide to Canadian authorities as to the nature and extent of legislation necessary."

Failure of the futures market to assume "anything like the risk-carrying function so commonly attributed to it" was named by Statistician Cairns as an additional contributor factor to present low prices. He claimed that speculators, distressed by the 1929-30 debacle, were hesitant to come into the market now, with the result that necessary buying to absorb "hedging" sales was not present, price-recessions following.

Urge Postal Reforms

Suggestions To Speed Up Mail Service Passed By Manitoba Association

Winnipeg, Man.—Two suggestions to speed up mail service were contained in resolutions passed by the Manitoba Postmasters' Association, in annual convention here.

The first requests that size of "open letter" envelopes be restricted to five inches in length, it being claimed that, in many instances, letters have been lost or delayed through use of large envelopes. The second seeks to eliminate use by large firms of the well known and popular stamped return envelope. These are sent out by companies to rural districts and returned from there without the local postmaster being accredited the revenue, it was said.

P. H. Nelson, Russell, Man., was elected president.

May Visit Canada

Miss Tolstoy May Enter Dominion If She Complies With Laws

Ottawa, Ont.—Miss Alexandra Tolstoy, daughter of the late Count Tolstoy, famous Russian writer, will be permitted to visit Canada if she complies with Canadian laws, it was stated in the House of Commons by Hon. W. A. Gordon, minister of immigration.

J. S. Woodsworth (Labor, Winnipeg North Centre), drew the minister's attention to a statement appearing in the press that Miss Tolstoy had been prohibited entry into this country.

W. N. U. 1887

New School Readers

New Readers For Western Provinces To Be Introduced Shortly

Edmonton, Alberta.—An inter-provincial committee of educationalists has met in Edmonton in a two-day session on the school reader question. With Alberta represented by Dr. John T. Ross, deputy minister of education, the other committee men were, Dr. S. J. Willis, superintendent of education for British Columbia; Dr. R. Fletcher, deputy minister of education for Manitoba, and Dr. J. S. Huff, superintendent of education for Saskatchewan.

To this committee had been submitted the report of an inter-provincial readers' committee that had met in Edmonton in January last, and from the two days' consideration of the report and of other information, there resulted an agreement upon the specifications to be furnished publishers for the proposed new set of school readers. The publishers will be expected to follow the general requirements thus laid down and will submit competitive books for adoption as authorized texts in the four provinces. The new readers are to be ready for introduction in the fall of 1933.

Rideau Hall Expenses

Salary Of Governor-General Is \$48,666.66 With Travelling Allowance Of \$50,000 Per Annum

Ottawa, Ont.—The total salary of the governor-general of Canada is \$48,666.66 per annum, and, in addition, he receives a travelling allowance of \$50,000 per annum, it was stated in the House of Commons in answer to a question by E. J. Garand (U.F.A., Bow River). Other allowances in addition to his salary are \$10,000 for aides-de-camp, and \$19,000 for fuel and light, making a total of \$79,000 in allowances.

The total cost of maintaining Rideau Hall, the governor-general's residence for the three fiscal years, 1927-28, 1928-29, 1929-30, apart from fuel and light, were \$185,823. In 1927-28, it was \$61,655; 1928-29, \$62,399; 1929-30, \$61,769.

Apart from his annual travelling allowance of \$50,000 the governor-general received \$2,905 in 1927-28; \$2,399 in 1928-29; and \$2,464 in 1929-30, for attendance and repairs to railway cars.

Other expenses incidental to the position of governor-general paid by the Dominion government total \$50,340.

Butter For Export

No Immediate Expectation For Higher Prices In View Of Heavy Production

Ottawa, Ont.—Enormous increases in butter production have placed Canada on the export market, and there is no immediate expectation of higher prices, Hon. Robert Weir, minister of agriculture, was told by representatives of the Montreal Produce Dealers' Association.

The continued reduction in butter prices led to the minister calling a conference, attended by T. W. Grieve, A. McKergow, K. D. Olive and John Charest, all of Montreal. One line of discussion was as to whether it would be advisable to withdraw part of the production into storage, to be held for next winter, when Canada might be again in an importing position. The produce men said, however, that production was increasing so rapidly that it would be hazardous to hold butter, particularly as with cows being turned into the fields the later churning would be of better quality than stocks now on hand.

Sets New Aviation Mark

Capt. Hawks Flies From England To Rome In 5 Hours and 20 Minutes

Hendon, England.—Flying the same little red "plane in which he shattered Colonel Lindbergh's speed record for a trans-continental flight in the United States, Captain Frank M. Hawks, of Texas, set a new aviation mark for European pilots to shoot at, even though he failed to accomplish the task he had set for himself.

Leaving here at 6:30 a.m., he arrived in Rome 5 hours and 20 minutes later, but on the return flight he was forced down in France by lack of fuel and could not complete the round trip.

BRITISH AWARD FOR CANADIAN

Dr. Charles Cansell, deputy minister of mines, upon whom a signal honor has been conferred in the award of the gold medal of the British Institution of Mining and Metallurgy. This is the second time since 1901 that the award has gone to a Canadian.

May Hold Conference On Unemployment

Federal and Provincial Ministers Likely To Meet When Session Closes

Ottawa, Ont.—Little doubt exists in political circles that representatives of the Dominion government and the provincial governments will foregather after the session closes to make provision for unemployment next winter. It is also probable that during this conference the deportation question will be brought up.

The government is understood to be well disposed to consider a proposal that a time limit be fixed in regard to deportations so that no immigrant who came to Canada could be deported after living here a certain number of years. This would necessitate changes in the immigration laws.

The department of immigration claims to have good cause for the deportations questioned in the British House. It was stated emphatically here that Canada would never relinquish her exclusive right to regulate immigration into this country from any source.

Will Open Toronto Exhibition

Admiral Of The Fleet Earl Jellicoe To Formally Open Big Fair

Toronto, Ont.—Admiral of the Fleet Earl Jellicoe will formally open the Canadian National Exhibition on Friday, August 25. It was made known in a cable from High Commissioner G. Howard Ferguson to the board of directors, informing them of Earl Jellicoe's acceptance.

The biennial convention of the British Empire Service League, of which Earl Jellicoe is president, will meet in Toronto immediately preceding the national exhibition. Delegates from all over the Empire will be in attendance.

BRITISH FLIER SETS NEW RECORD

Commander Glen Kidston, British sportsman, motorist and aviator, set a new record for a flight from England to Capetown, when, he arrived at the South African city approximately six and one-half days after taking off from Croydon airport. Commander Kidston is one of the survivors of the air crash at Godstone, Surrey, in which four persons were killed. Immediately after the crash he went up in an aeroplane for ten minutes "just to steady my nerves." Above left to right, at Croydon airport, a few days before the start are: L. A. V. the wireless operator; Commander Glen Kidston, and Lieut. O. Cathcart Jones, assistant pilot, beside the plane they used on the flight.

Reorganization Plan Means Many Changes

Western Offices Of Soldiers Settlement Board May Be Amalgamated

Ottawa, Ont.—Amalgamation of western offices, early retirement of two scores and more of employees—these results will follow from the reorganization of the Soldiers Settlement Board, which was announced by Hon. Wesley Gordon, Minister of Immigration. Offices at Regina and Prince Albert will be closed down, and the work of the board will be concentrated at Saskatoon.

The board at Ottawa, consisting of three members, of whom the chairman is Col. J. G. Rattray, of Manitoba, is to be abolished, and the work done by one man to be appointed later on. There will, also, be a large cut in the Ottawa staff.

This plan of reorganization seemed to have been worked out by Tom McGladrey, of northern Ontario. Mr. McGladrey, said to be a close political associate of Hon. Wesley Gordon, was appointed some time ago to make an investigation of the department. He was paid, it is said, \$25 per day plus expenses. He had had some experience in farm matters, having been associated with the Massey-Harris Company. He has made an exhaustive survey of the department, visiting all the offices from Ottawa to Vancouver, and his recommendations are now being implemented.

Thousands Deported

Total Of 4,205 People Deported From Canada During Year 1930

Ottawa, Ont.—A total of 4,205 people were deported from Canada during the year 1930, it was stated in the House of Commons by Hon. W. A. Gordon, Minister of Immigration, in answer to a series of questions by H. E. Spencer (U.F.A., Battle River).

Mr. Gordon stated that 2,864 of the total were deported to the British Isles; 156 to Poland, 112 to Germany, 237 to the United States, and the remainder were divided among various European countries, New Zealand, Newfoundland, China, Japan, and so forth.

The reasons for deportations were many. Of the total number sent back from Canada, 1,806 were deported as public charges, 701 because of convictions for criminal offences, and 445 as mental defectives. Physical defects were responsible for the deportation of 320.

Mr. Spencer was informed that the cost of deporting these people was \$138,220.

Unveiled Remembrance Stone

Ottawa, Ont.—On April 23, His Excellency the Governor-General, over the long distance telephone, unveiled a remembrance stone in London, England, to Michael Faraday, whose epoch-making discovery led to the birth of the electrical industry. The Earl of Beasbrook is a former director of London Power Company.

REDUCED SERVICE ON RAILWAYS IS DISCUSSED

Ottawa, Ont.—The question of railway rates and of reductions in railway services is one primarily for the Board of Railway Commissioners, and the government has no authority to intervene in respect of such matters, Hon. R. J. Manion, Minister of Railways, told the House of Commons.

The Commons was considering a resolution sponsored by Oscar Boulanger (Lib, Bellechasse). This motion asked that in order to relieve unemployment the government should invite the railways to re-establish reduced passenger rates in favor of colonists, and that grants from public funds be made to help the railways in so doing.

In support of his motion, Mr. Boulanger said a better distribution of people between cities and rural parts was necessary in Canada. There were too many people in the cities, where, in these hard times, they were finding it impossible to find employment. A "back to the land movement" would clear this situation and the government should lead the way by assisting the railways to grant lower colonization fares. During the past five or six years, great numbers of farmers abandoned the country in favor of the city, and they formed, Mr. Boulanger believed, the vast majority of the unemployed of today.

Canada assisted immigration until a short time ago, why not assist colonization, the member for Bellechasse asked.

From Robert Gardiner, U.F.A. leader, came the opposite contention, "Under present agricultural conditions not one dollar of public funds should be spent to take one person back to the land. In some sections of the west, rather than open up new farming areas, they should be closed to colonization until consumption of agricultural products equalled production."

This would be a very difficult time for Canadian railways to be asked to give special considerations, asserted Mr. Manion. Passenger receipts of the Canadian National, and he believed of the Canadian Pacific, had been falling steadily in the last five years. While he did not give the exact figures to the House, he said he had been "staggered" when they were shown to him. Competition from automobiles and buses were two contributing factors to the decline in passenger revenues.

In many parts of Canada curtailment of services had been found necessary by the railways. Daily services were made tri-weekly and in one case this would lead to a saving to the Canadian National of \$30,000 a year. In one instance it had been found that the cost of operation was \$1.50 a train-mile while the revenue was 30 cents.

This decrease in service had resulted in "protests pouring in" to him, Mr. Manion stated, but he did not believe it was the duty of the minister of railways to intervene.

It was not the part of the government to influence the railways, particularly in these days when the National system had difficulty in meeting its obligations, continued Mr. Manion.

He would certainly make sure that Mr. Boulanger's motion reached the management of the two railways.

Replying to a comment by Mr. MacKenzie King, the minister declared that in the last two weeks the railways had reduced week-end fares, he presumed for the purpose of securing more passenger traffic. Revenue was being lost, due to competition by buses and private motor cars.

Recognize Spanish Republic

London, England.—Sir Hon. Arthur Henderson, secretary for foreign affairs, announced in the House of Commons that all the Dominion governments had fully concurred in the decision to officially recognize the new republican government of Spain.

Plan Air Race Around World

Los Angeles, Calif.—A race around the world between two ambitious flyers in identical monoplanes became a possibility here with preparations by John Henry Mears, of New York, and Wiley Post, Oklahoma City, speed flyer, entering the final stages.

Stony Plain and District

Mr and Mrs George Spike are moving to Edmonton this week, to reside. On Tuesday Mrs Spike was the guest of honor at a social evening given by the local W.I.

Mr Max Kast is up in the Heatherdown district, putting in a crop.

Gus Werner left yesterday for his ranch near Whitecourt.

Mrs Christy and the children returned on Tuesday from a month's visit with friends at Entwistle.

The Postoffice at Edmonton Beach will open tomorrow, May 1st.

Following a custom prevalent in towns in the East, where rest benches are found in front of business places, Proprietor Larson has introduced this custom into Stony by installing a wicker settee on the pavement's edge in front of the Royal Cafe; and this has been so well patronised, it's probable a twin bench will be placed on the other side of the main entrance.

Paint up! Clean up! The latter by order of the Board of Health.

For poultry raisers, Stony Plain Pharmacy now has the Larkspur Lotion for killing headlice on young chicks and young turkeys.

There is a rumor current that Holborn will be holding its annual picnic, this year, on Friday, May 22d.

There are a few copies of the Basketball League schedule of games at The Sun Office. Those interested may obtain a copy, while they last.

Basketball Games.

The opening of the basketball season took place at Garden Valley on the 22d, when Stony's Boys beat the Valley-tes 4 to 3. Stony's Girls were not so fortunate, as being out of practice, the Valley Girls had no trouble defeating them by a good score. Results of other games follow.

April 23—Comet v. W. League; game postponed.

April 26—W. League Boys 12, Stony Boys 6. Girls game tied, 8 all.

April 28—Garden Valley vs. Comet—No game.

The next games are—May 3rd, Comet at Stony Plain. May 7th, Garden Valley at Walther League.

Town of Stony Plain Assessment Roll 1931.

NOTICE IS HEREBY GIVEN that the Assessment Roll of the Town of Stony Plain for the year 1931 has been prepared and is now open for inspection at the office of the Secretary Treasurer of the Town from 9 o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday except Saturday and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said Roll or to the assessment of any property or to the assessed value placed upon any property must within thirty days after the date of this Notice lodge a complaint in writing with the Secretary Treasurer of the Town.

DATED this 4th day of April, 1931.

JAS. MALLOCH,
Secretary Treasurer.

Funeral of Conrad Albrecht

Conrad Albrecht was born on the 9th of April, 1873, in Norfolk, Saratone, Russia. On the 27th of January, 1895, he was united in the bonds of holy matrimony to Elizabeth Den.

This union was blessed with fifteen children. Three of these children passed away in infancy, and waited for the father on the Other Shore. In 1900 the deceased came to Canada and settled in Stony Plain district, where he was a respected resident. In 1905 he joined the Glory Hills German Baptist church and remained a faithful member of the church and his God to the end.

Deceased had been ailing for several months, but during the last ten days his sickness became more critical. The doctor came about every day. On Saturday morning, April 25th, at 9:30 o'clock, he passed unexpectedly away. Heart disease was the cause of his sudden demise. He attained the age of 58 years and 16 days. He leaves to mourn his loss, his sorrowing widow; 7 sons—Henry, John, Willie, Adam, Remben, Lawrence, Clarence; 5 daughters—Katie (Mrs Carl Freitag), Elizabeth (Mrs Gen. Albrecht), Emma, Annie, Sarah; 2 sons in law—Karl Freitag and George Albrecht; 2 daughters in law—Olga and Lily; 5 grandchildren; and a large number of friends and acquaintances.

The funeral service, Sunday morning, was held in Glory Hills Baptist Church. Rev C. H. Reppert spoke in the German language, and Rev Fred W. Benke in the English language.

Special messages in song were brought by Jonathan Tobert's Male Choir, Duettsby, Leonard and Alma Jersperson, and Irene Jersperson and Bertha Horn.

The pallbearers were: Andrew Jersperson, Jesse Jersperson, Henry Bloch, John Tobert, Herman Bohn and John Sinning.

Interment took place in the Glory Hills cemetery.

Step by step we journey home.
All our paths are planned.
Very soon we each shall come
To the resting land.

Purple Chicks & Green Chicks

Eggs were cheap at 'setting' time this Spring; so cheap, in fact, that a poultryman in the Calgary district was induced to try out some experiments on his own account, in the way of having this year's chick crop blossom forth in costumes the hues of which were hitherto unknown in the chick world.

An enterprising proprietor of a hennery in that district by injecting a serum into the egg by means of a hypodermic needle, on the 19th day of the incubation, has succeeded in producing chicks with purple plumage, and others with a green shade—something heretofore not seen by those who run incubators or brooders.

Schedule of Mails.

From the East—Every midnight except Saturday.
From West—Mon., Wed., Friday mornings.
To the East—Every morning except Sunday.
To West—Sun., Tues., & Friday midnight.

IN APPRECIATION OF A GREAT VICTORY

A thoughtful presentation took place Wednesday night at the banquet tendered in Montreal to the Canadian Hockey Team, winners of the Stanley Cup for the second time in succession and which is emblematic of the Professional Hockey championship of the World.

In appreciation of retaining the trophy in Canada and for the splendid showing made by the individual players of the team, the Gillette Safety Razor Company of Canada, Limited, presented each member of the team with a beautiful Razor and complete shaving outfit. Each set was imprinted with the individual's name in gold leaf lettering.

The presentation was made by Mr. J. S. Lavene, Managing Director of the Company who said "I do not know of a better way to show our appreciation of the very fine performance of the Canadians team this season—it is indeed a privilege and a pleasure to do our bit by presenting to each player a Gillette Safety Razor."

Photograph shows Mr. Lavene presenting gift to Howie Morens, the great scintillating star, while Cecil Hart, manager of the successful team, looks on.

Spruce Grove News.

A well-contested basketball game was played on the local school court Sunday evening with honors about even with the contestants.

There promises to be a good baseball game at the Grove on Sunday next, when one of Stony's outfits engages the Grove's team.

Rumor has it that the Morrow store will shortly be reopened as a restaurant and ice cream parlor.

Owing to the increase in his business, Mr Nickels has been obliged to enlarge his restaurant premises. Adam Mohr has just completed an addition which gives Jack ample scope for his culinary operations.

The doings of the next Community meeting will be looked forward to with interest, as several matters of importance are due to come up.

A Community whist drive is billed for Winterburn hall tomorrow (Friday) evening.

To see 'em out diggin' up the gardens this week, one would think spades were the trumps.

The cream shipments from this district at present have attained record proportions, with several trucks engaged in hauling it to the City.

VILLAGE ACT.

NOTICE !

NOTICE IS HEREBY GIVEN
that, pursuant to the provisions
of The Village Act in that behalf,
a petition has been presented to
the Minister of Municipal Affairs,
praying for the erection of

Firstly: All that portion sub-
divided under Plan No. 2387
A.R. of record in the Land Titles
Office for the North Alberta
Land Registration District.

Secondly: All that portion of
the Southwest Quarter of Sec-
tion Three (3), Township Fifty-
three (53), Range Twenty-seven
(27) west of the Fourth Meri-
dian, in the said Province, not
subdivided under said Plan No.
2387 A.R.

Thirdly: All that portion taken
for Station Grounds in the
Northwest Quarter of Section
Thirty-four (34), Township Fifty-
two (52), Range Twenty-seven
(27), West of the Fourth Meri-
dian, in the said Province, con-
taining 26.88 acres more or less,
as shown on Railway Plan No.
6267 R. of record in the said
Land Titles Office.

Fourthly: All that portion of
the original road allowance,
lying to the North of the North-
west Quarter of said Section Thirty-
four (34).

Fifthly: The East half of Legal
Subdivision Sixteen (16) of the
Northwest Quarter of Section
Thirty-four (34), Township Fifty-
two (52), Range Twenty-seven
(27), West of the Fourth Meri-
dian, in the said Province, con-
taining Twenty-two (22) acres more
or less, excepting thereout 2.52
acres taken for right-of-way of the
Grand Trunk Pacific Rail-
way Company.

Sixthly: All that portion of the
East half of Legal Subdivision
Sixteen (16) in the said Section
Thirty-four (34) which lies be-
tween two lines parallel with
the centre line of the Grand
Trunk Pacific Railway as shown
on said Railway Plan No. 6267
R., one parallel line being Fifty
(50) feet perpendicularly distant
Northerly from the said centre
line and the other being One
Hundred and Sixteen (116) feet
perpendicularly distant Southerly
from the said centre line.

Seventhly: All that portion of
Legal Subdivision Fifteen (15)
and the West Half of Legal
Subdivision Sixteen (16) of said
Section Thirty-four (34) which
lies North of a line parallel
with and perpendicularly distant
Southerly Three Hundred (300)
feet from the centre line of the
said Railway as shown on said
Railway Plan No. 6267 R.

into a Village, and that all objec-
tions to the organization of such
territory into a Village must be
filed with the said Minister within
30 days from date of this notice.

DATED at Edmonton, Alberta,
this Thirtieth day of April, 1931.
(Signed) R. G. REID,
Minister of Municipal Affairs,
Edmonton, Alberta.

Before the P. M.

The only cases before Mag-
istrate Williams in the local
Court this week were those of
Rex vs. McMahon, and Rex
vs. Fischer; the latter case
was, however, adjourned until
next week. In this case the
Complainant wished to with-
draw the charge; but the
Magistrate refused to allow
the withdrawal, but granted
the accused a week's adjourn-
ment.

In the McMahon case, both
parties reside at Clymont.
The charge was that of as-
sault, but after hearing evi-
dence for both sides the Mag-
istrate refused to believe the
Complainant's story, and dis-
missed the case. Geo. J. Bryan
appeared for the defence in
both cases; Constable Bums
for the Crown.

Intermediate Baseball.

The officials and members
of the Intermediate Baseball
League hold their big confab
tonight, the 30th, at Winter-
burn hall. It is expected that
the schedule for the League's
games will be drawn up.

Since the inaugural meeting
of the League, another club,
Duffield, has signified its
willingness to join the League
—making it a six club organi-
zation: Spruce Grove, Stony
Plain, Duffield, Winterburn
A & B teams, and a team from
Laigh's Reserve.

These teams are all anxious
to get playing; and we are
likely to see a good game on
local grounds shortly after
the schedule is put out.

At the Walther League
Stony Intermediate ball game
on the 26th the League beat
Stony 4 to 3 runs. Referee,
W. Brox. Batteries: W. L. E.
Enders, C. Wadel; Stony, F.
Goddard and L. Miller.

Edmonton Beach.

Since moving to the Beach
several weeks ago, Mr. Jack
Barrie has carried on a cam-
paign of improvements at that
popular summer resort. The
pleasure boats, which had been
in storage all winter, have been
taken out and put in
commission for their work on
the beautiful lake.

The coming season promises
to see a greater number of
patrons at this recreation
ground; and in anticipation of
the increased patronage, Mr.
Barrie is planning a number
of additional attractions.

Sunday last was another
fine day, and the Beach had a
visit from cottagers and others
who had motored out from
the City.

Mr. Barrie is making a spe-
cial offer, for a short time
only, to those who would like
to own a place at this resort.
The offer is to buy a \$25 lot;
build a \$75 cottage on it; rent
it part of a season; and spend
part of a season in it yourself.
For further information, see
Mr. Barrie about this generous
proposition.

NOTICE.

Applications will be received by
the undersigned for the position of
Secretary-Treasurer of Tecumseh
S.D. No. 1992 for the balance of
1931.

Tenders received up to noon,
April 30, 1931.
H. J. McDONALD,
Secretary-Treasurer,
Holborn, Alta.

ently no better and no worse
than the country's population at
large," says a professor. "We re-
frain from comparing them with
the country's population that isn't
at large."—Western Leader.

A newspaper, all will agree,
should not be judged by one edi-
tion any more than a college pro-
fessor should be judged by one
lecture. Nor, for that matter,
should it be judged by its steamer
headlines alone.—The Edmonton
Journal.

The skid properties of the ban-
ana skin are quite equalled by
those of a spoonful of mashed
potatoes on the kitchen floor.—
Indian Head News.

Church Services.

Services in St. Philip's Church

Schoolhouse at 7.30 p.m., by Rev.
H. Kuring.

Heard at the Court.

Magistrate—Why don't you
people settle this case out of
court?

Accused—Well, judge, that's
what we were just about when
the police came along and inter-fered.

Lady Driver—Disastrous Results.

NOTICED AROUND TOWNS—One
lady of Islay teaching another to
drive a car in Vermilion, with dis-
astrous results to the high cement
kerb near the Veterans' Store, on
Wednesday p.m.—Vermilion Stan-
dard.

The Risky Playgrounds.

In order to avoid future trouble
and expense, Lebus school board
has taken out playground accident
insurance covering all the children
attending the schools.—The Rep-
resentative.
